

SoftFil® Precision

The widest and most advanced
range of micro-cannulas

22 sizes from 14G to 30G

SoftFil® Precision

The SoftFil® Precision micro-cannula is internationally recognized for its design, created for the **comfort and safety of both physicians and patients.**

The range allows:

- A more **precise** product placement
- A **safer** injection
- A **wider choice of sizes** specifically thought for each treatment area

Which choose SoftFil® Precision?

A round tip for greater safety*

** CER/SiK Report*

A graduated design for greater precision*

** USE-CEG Report*

A clear orifice indicator for more control*

** USE-CEG Report*

Siliconized stainless steel tubes for greater comfort*

** Part 8 "Design verification" of TD-SiK*

A perfect combination of rigidity and flexibility for more possibilities*

Part 8 "Design verification" of TD-SiK

A Luer-Lock base for greater resistance*

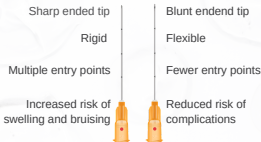

** Part 8 "Design verification" of TD-SiK*

Injectons are 77% safer using micro-cannulas*

A recent **JAMA Dermatology** paper demonstrated that upon 1,7 million injections:

- 1 out of 6 410 vascular occlusion occurred via needle
- 1 out of 40 882 occlusion occurred via micro-cannula

NEEDLE VS CANNULA

*JAMA Dermatology. Rates of Vascular Occlusion Associated with using Needles vs Cannulas for filler injection, 30 Décembre, 2020
